

USB-FDD

USB Powered external 3.5" Disk Drive

Legacy Storage made simple.

Are you looking to read or write data using legacy 3.5" Floppy Disks (FD) for your applications such as archiving or historical data mining? Current Computer Systems are now being manufactured without these once popular peripherals.

Introducing the new Dynamode **USB-FDD**. Compact and stylish, the device is fully USB Bus Powered and allows users to read and write to standard 3.5" Floppy Disks to a formatted capacity of 1.44Mbytes – the industry standard.

With fast read and write times and the ability to be used with a variety of Operating Systems including Windows® and MAC® OS X. Fully USB1.1 compatible and yielding a high data transfer rate of up to 250K bits per second, the **USB-FDD** is ideal for both Desktop, Servers and Mobile users.

Available now from authorised Distributors and Resellers
